

The Great Falls Police Community Foundation believes public safety is the most important service city government can provide to its citizens. The Foundation was developed in 2007 after several community members recognized the need to supplement the Great Falls Police Department's efforts to keep pace with rapidly evolving equipment, technology, strategies, and training that are not covered within the City budget.

Through the generous donations of many community members and businesses, the Foundation has raised over \$250,000 to benefit the Department in their efforts to prevent crime, save lives, protect property, and help make Great Falls a better, safer place to live, work, and visit.
